Not All CONVERTIBLE SEATS Are Converted EQUALLY

There is a great deal of uncertainty in the industry following NHTSA's recent statement regarding lap shoulder seat belts on school buses. Convertible seats may be your most cost-effective time saving solution. Remember, all convertible seats are not converted equally.

There are a variety of convertible seats on the market – but only one can convert in two minutes. Syntec's S3C seat quickly and easily converts to a restraint, lap/shoulder seat or an integrated child seat in two minutes. All it takes is 6-2-1, 6 bolts, 2 minutes and 1 torque. Built for safety, S3C seats meet all FMVSS and CMVSS requirements.

Stay ahead of the curve – make sure your convertible seat, is a convertible, choose Syntec's S3C convertible seat.
